As medical professionals, we know that Deep Vein Thrombosis (DVT) is a potentially life-threatening condition that requires prompt diagnosis and treatment.

### Why us?

- Canadian Vascular Laboratories is the largest provider of vascular diagnostics in the York Region
- We provide consultation services if needed
- College of Physicians and Surgeons of Ontario 2010: “You and your staff are to be commended for your commitment to continuous quality improvement as well as providing quality patient services in your community.”
- College of Physicians and Surgeons of Ontario 2020: “Dr Gupta and members of the Canadian Vascular Laboratories AU24 should be commended for their contribution to the high` quality and standards of the facility. The laboratory provides the community with an exceptional level of care.”

### IF YOUR PATIENT PRESENTS THE SYMPTOMS BELOW:

**C**alf swelling

**L**eg warmth and redness

**O**ut of breath

**T**enderness or leg pain

**S**harp chest pain

### What we offer:

- Timely testing reassures you and your patient about the presence of a DVT
- Your patient is not waiting for hours in an emergency department for a test
- If a DVT is found, we notify you by fax and we can verbally as well
- If a DVT is found, your patient is sent to the local emergency department with a written report

**Please call or fax us and request a requisition**
